Education

Indian Institute of Technology, Jodhpur

B.Tech in Computer Science and Engineering

Expected Graduation: 2027

CGPA: 8.6/10

Achievements

- **JEE Mains:** Secured AIR 1990 (**99.83 percentile**) among 12,00,000+ students (2023).
- **JEE Advanced:** Secured **AIR 2130** among 1,80,000+ JEE Mains qualified students (2023).
- **PhysicsBrawl:** Secured **22nd place** in international competition by Charles University (2022).

Projects

MoodFlix

Software Engineering Course Project

April 2024

[\[GitHub\]](#)

Tools: Python, NLP, ASR, SER, Transformers, Flask, PyTorch, AWS.

- Designed and built 'MoodFlix', a web app recommending movies based on user emotions, achieving 87% accuracy in emotion classification.
- Implemented Wav2Vec for speech-to-emotion recognition, reducing word error rate by 22% compared to original models.

Video Analysis

Design Credit Course Project

December 2024

[\[GitHub\]](#)

Tools: Python, Deep Learning, YOLOv11, OpenCV

- Developed ML model to detect wall cracks with mAP50-95 of 0.5608.
- Optimized dataset preprocessing, reducing training time by 25%.

PathFinder

DSA Course Project

November 2024

[\[GitHub\]](#)

Tools: C++, DSA, JavaScript, Docker

- Created an optimal pathfinding system using an optimized Dijkstra's algorithm.
- Implemented a pathfinding simulation in a graph using the A* algorithm for efficient shortest-path computation.

Self-Driving Model

Self-Learning Project in ML/DL

April 2024

[\[GitHub\]](#)

Tools: Python, TensorFlow, AlexNet CNN

- Developed an autonomous keyboard control system for Grand Theft Auto V with 53% precision.
- Processed over 100,000 frames for training, improving model accuracy by 15%.

Technical Skills

- **Programming:** C, C++, Python, JavaScript.
- **Tools, OS & Techniques:** Git, Linux, Windows, YOLO, SolidWorks, AWS, NLP, Docker.
- **Libraries:** PyTorch, TensorFlow, Pandas, NumPy, scikit-learn, OpenCV.
- **Web Development:** HTML, CSS, JavaScript, Flask, React.

Key Courses Taken

- Data Structures and Algorithms
- Software Engineering
- Mathematics for Computing
- Probability and Statistics
- Pattern Recognition and Machine Learning

Position of Responsibility

Design Team and Core Member, Sangam (Music Society), IIT Jodhpur

2024-2025

Co-Curricular Activities

- **Band Performances:** Delivered 15+ flute performances, including InterIITs.
- **Music Production:** Created and produced tracks using FL Studio with advanced techniques.
